

### Features & Benefits

- accepts up to two 1356 gas or 1360 solid state type station protection modules
- easy installation
- ultra-violet weather resistant housing
- lid locks into position
- removable knock-out and guides on back of unit to mount onto 3/4" conduit and/or conduit connector
- scalloped body design allows for easy replacement of protector module
- ground post molded directly into the housing; therefore the unit does not require an additional T-post ground adapter
- includes flexible rubber grommet at wire entrance
- includes universal mounting screws
